DETAILED ACTION

1. Claims 2, 15 and 17 have been cancelled.
2. Claims 1, 3-14, 16 and 18-23 are allowed.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

As applicant pointed out under Remark section, pp. 15-25, Furrer et al. (US 2005/0192962 A1), taken either singly and/or in combination with other cited prior arts, do not teach the combined functional limitations of one of a plurality of listeners, recorded on a computer readable medium, when executed by at least one processor, simulates a corresponding one of the plurality of drivers corresponding with one of the plurality of first data stores and receives the data request from a corresponding one of the plurality of commercial-off-the-shelf software applications that is compatible with the one of the plurality of first data stores simulated by the one of the plurality of listeners, wherein each of the plurality of commercial-off-the-shelf software applications has a corresponding one of the plurality of listeners; a translator, recorded on a computer readable medium, in communication with the one of the plurality of listeners and the plurality of second data stores, the translator, when executed by at least one processor, receives the data request from the one of the plurality of listeners, translates the data request into a generic format to produce a translated data request, and submits the translated data request for one of the plurality of drivers corresponding with one of the plurality of second data stores for storage by the one of the plurality of second data stores; and a data access layer, recorded on a computer readable medium, in communication with the translator and, when executed by at least one processor, determines to direct the translated data request from one of the commercial-off-the-shelf software applications

that correspond with the one of the plurality of listeners to the one of the plurality of second data stores, and translates the translated data request from the, generic format into a storage format of the one of the plurality of second data stores, as recited in such manners in each of independent claims 1, 13 and 16.

Prior arts of record do not teach and/or suggest these claimed limitations, thus, all remaining pending claims 1, 3-14, 16 and 18-23 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
